LOCATION	Chennai, India
OCCUPATION	Undergraduate Student
EDUCATION	Engineering
PRIMARY DEVICE	Android Smartphone

KEY CHARACTERISTICS

Tech-savvy • Busy • Convenience-driven • Value-focused

QUOTE

"I want good food quickly without spending too much or wasting time deciding what to order."

BACKGROUND & LIFESTYLE

Arjun is an undergraduate engineering student with a demanding academic routine. He regularly uses food-delivery apps when he is busy with classes, projects, assignments or social activities.

Lifestyle: He spends most weekdays at college and often studies in the evening. Convenience matters because his meal decisions need to fit around an unpredictable schedule.

GOALS & MOTIVATIONS

- Find affordable meals quickly.
- Compare restaurants using ratings, photos and reviews.
- Use discounts, coupons and student-friendly offers.
- Track orders and receive accurate delivery estimates.
- Reorder favorite meals with minimal effort.

CHALLENGES & PAIN POINTS

- High delivery fees can exceed his budget.
- Too many choices can make discovery slow.
- Unreliable ETAs are frustrating during busy periods.
- Unexpected charges at checkout reduce trust.

BEHAVIOR PATTERNS

- Uses his smartphone throughout the day.
- Orders food around 4–5 times per week.
- Frequently orders during evenings or late nights.
- Checks price, rating, photos and offers before ordering.

PREFERRED DEVICES, PLATFORMS & DESIGN IMPLICATIONS

Preferred platforms: Android app, Chrome, UPI/digital payments

Interests: Gaming • Music • Technology • Movies • Restaurants

Design implications: Prioritize fast discovery, clear pricing, reliable delivery information, simple checkout, relevant personalization and easy repeat ordering.

PERSONA INSIGHT | Foodly should help Arjun move from discovery to checkout with as little friction as possible.
